

*Court of Appeal
Newfoundland and Labrador*

As you may be aware, the Maritime Law Book ceased publishing the Atlantic courts' decisions in August 2016. The Court of Appeal of Newfoundland and Labrador decided to publish its decisions in book form for the use of the courts, the bar, law libraries, litigants and the public.

While there is a movement to electronic means of accessing information, we believe that there is a continuing validity and need for maintaining an official compilation of Court of Appeal decisions in book form. An annual compilation dedicated to the Newfoundland and Labrador Court of Appeal jurisprudence is a means of preserving the historical record in permanent form and in a convenient place for current reference.

These Law Reports have been professionally head noted and edited. Currently we have ordered and received 40 copies of Volume One, which is 800 pages in length and of impressive quality. We are now offering the first Volume covering the period September 2016-June 2017 for \$250.00.

If you are interested in subscribing to this Law Report Series and subsequent annual volumes, please contact us and place your order.
